Safa Abiasis Bashir Yusuf (YUS23603526)

UML Class Diagram.

This diagram shows the object-oriented structure of the system.

Explanation:

Defines the attributes and methods of each class.

User Class contains:
User-related methods like register (), login(), track Progress(), manage Assessment(), give Feedback(), and logout().

Admin Class contains:
Admin-related methods like update Content (), manage Accounts(), and handle Enquiry().
Other entities like Quiz, Assessment, Feedback, Enquiry, and Account Management are linked logically.

This diagram is essential for defining the attributes and methods of system components and it helps developers build modular, maintainable, and scalable code aligned with system logic.

"Breaking Barriers, Building Bridges – One Language at a Time."

our mission

At Dualinguist, we believe that language is more than just words – it's the key to understanding, connection, and opportunity. Our mission is to empower learners of all backgrounds to bridge cultures, break barriers, and embrace the global community.

We Stand For:
Accessibility for All – Inclusive, engaging, and intuitive language learning for everyone.
Cultural Understanding – Celebrating diversity through language and meaningful connections.
Innovative Learning – Blending technology with proven methods for an effective experience.
Mutual & Inclusive Education – Fair, respectful, and culturally sensitive learning for all.
Global Opportunities – Empowering learners for travel, career, and personal growth.

Join the Movement

Language is a superpower – it unites people and opens new opportunities. At Dualinguist, we're not just teaching words; we're creating a world where communication has no limits. Be part of the change. Speak. Learn. Connect. 🌍✨

Dualinguist Privacy Policy ☒

Privacy Policy

This privacy policy explains how we handle your data, including what we collect, how we use it, and the measures we take to protect it.

📌 Data Collection – What & why we collect	We collect personal and usage data to enhance user experience.
📌 Data Use – Purpose of collected data	Your data helps improve services, personalize content, and ensure security
📌 Data Sharing – Third-party involvement	We share data with trusted partners for analytics, ads, and security
📌 Security Measures – Safeguards in place	We use encryption, firewalls, and regular audits to protect your data.
📌 User Rights – Access & control options	You can access, edit, or delete your data. Contact us for assistance.
